### As a Visionary, Don't You Want to Know How Much Profit is Being Left on the Table This Year?

### An Enterprise Master Plan (EMP) Can Tell You...and Assure it Never Happens Again

**THE EMP VALUE PROPOSITION** is simple. It <u>assures</u> all the enterprise's annual planning applications are executing to the maximally profitable forecast with the optimally designed supply chain, including:

- Finance (Financial Planning & Analysis (FP&A))
- Operations (Sales & Operations Planning (<u>S&OP</u>))
- Sales and Marketing (Marketing-Mix Modeling or Sales Resource Optimization)

Finally, in so doing, the EMP assures ALL your functional silos are harnessed to the maximally profitable forecast.

#### **IT WORKS**

• Simplified proof of concept model demonstrated ROI improvements of 27-87% which drove 28-56% improvements in profit. Call John Miller, President, Arkonas, 832.628.7630, for draft of our forthcoming white paper.

# IT KEEPS ON WORKING

• Sophisticated variance analysis techniques analyze the actuals as they accrue and, as required, key model parameters are modified and the profit re-maximized.
